PROFILE

Web developer with over 2 years of experience in Canada, I have designed Angular applications and custom WordPress themes. Currently seeking an apprenticeship for full-stack training, I am ready to put my skills to work on your projects.

EXPERIENCE

May 2022 - August 2024 - Montreal, Canada

Front-end Developer - Kryzalid

Development of Angular web applications for 7 real estate agencies and creation of 8 WordPress themes for various organizations using Twig, JavaScript, HTML, Sass, and PHP. Maintenance and improvement of Kryzalid's websites and solutions.

October 2016 - January 2020 - Paris

Land Developer - Nacarat

Prospecting, creating, and managing real estate projects in Yvelines, France, in collaboration with municipalities to identify new opportunities and ensure the success of the projects.

October 2015 - September 2016 - Pierrelaye

Real Estate Negotiator - Legendre Immobilier

Specialized in property valuation and sales in Pierrelaye, providing personalized advice and services as well as in-depth market knowledge to clients.

EDUCATION

2024 - Present - Remote

Software Development Expert - RNCP Level 7 (Master) - OpenClassrooms

Training in full-stack development with Angular and Java, including application auditing, architecture design, and project supervision.

2021 - 2022 - Remote

Web Developer - RNCP Level 5 (Associate) - OpenClassrooms

Program covering front-end and back-end technologies, as well as project management and web performance optimization.

2016 - 2018 - Paris

Master's in Urban Planning and Real Estate Development - ESPI

Training in project management, land use planning, and commercial development of real estate operations.
